NO. 7

## THE FRATERNITIES.

The various chapters located here went hard to work at the opening of the session and with one exception all have large memberships. As congeniality is the dominant feature in these societies it would be out of place to comment on the other qualities so necessary for every well rounded man. Suffice it to say that in their ranks will be found many men of merit while on the other hand some of the very best talent of the institution is to be found among those who have not yet bended the knee. This is as it should be, but we think in some cases the chapters have not been alive to their opportunities. Good men have been allowed to slip from their grasp. False standards have been raised. In fact, the fraternity, like others, has not escaped the recent crashes and collisions felt in the political, financial, commercial religious, and educational world. They could not, man is sympathetic. The old time Presbyterian brother whom we all loved and whose very presence was life and inspiration is almost no more. His cheering words of advice fall on barren soil. He is almost out of hailing distance, but he may yet be recalled. His place is filled by one whose only desire is advertisement and popularity. During the last few years he has generally worn his hair long. He lives to eat the good things of this world and to impress others with his greediness. His influence is deadening to the fine sensibilities of all about him, especially his own men. He toils not, neither does he spin. He cares not. When there is glory to share, he is ever present. He is a parasite. Cut him off even though you suffer for the time being.

But the darkness preceeds the dawn. We look eagerly for better times. They are coming. Acting on the principle that "God helps those who help themselves" it is our duty to do our level best to help the new turn. What you are required to do, you well know.

The time when the Society and Fraternity went hand in hand is almost beyond our memory, and yet this dates back only a few years. Why can't these old times be revived? How the old men speak of them! They can be revived. Let us see to it.

Do it, and be not weary in well doing. Usher in the remaining months of the new year with a revival of the principles you love so well. Quaff your thirst at the spring of truth. Drink deep or taste not. There is no medium. We wish you a pleasant and profitable year.

### AS TOLD BY HIMSELF

A Modest story of His Remarkable Career in His Own Words.

The story of Joseph E. Brown's life was told with fullness and accuracy in yesterday's Journal. No one else could have told it half as well as he himself did, however, in an address which he prepared for delivery at the State fair in Macon, October 23, 1890.

That address, which ill health prevented him from delivering in person, was in the nature of a parting address to his people and a formal farewell to public life. It closed

with an exhortation to the youth of the land to aspire and to rise.

"As my own experience has some bearing on this question," he said, "I must ask the audience to pardon the egotism which, under other circumstances, would be offensive, while I make some allusions to my own case."

Then followed this short and simple story of his marvelous career in his own modest words:

"My father was a farmer with small means and a wife and ten children to support, and I was raised on a farm and worked hard as a field hand until I was 19 years of age, when, with the consent of my parents, I left the farm in Union county, Georgia, in November, 1840, when the view of going to school at Calhoun Academy in Anderson District in South Carolina. My only education was that I could read and write and I had been in arithmetic as far as the rule of three. My only earthly goods were a comfortable home-made change of clothing made by my good mother and sisters, and a fine yoke of steer which I drove before me as I walked on my way to Calhoun Academy, about 125 miles where I entered the school under the control of Mr. Pleasant Jordan.

"I sold my steers for eight months' board, and as I had no money with which to pay my tuition, Mr. Jordan was kind enough to give me credit for that. Suffice it to say that after the end of eight months I taught an old-field school for three months to get a little money to aid me. Under the encouragement of Dr. O. R. Broyles, of Pendleton, S. C., and of his father, Major Aaron Broyles, of Calhoun, and of the late Judge J. P. Reed, I returned to school and got board and tuition on credit for the next two years. In the meantime, by close application and hard study, I had prepared myself for teaching in an academy, and I went to Canton and took charge of the academy there in 1844, where I had a fine school and made some \$500 or \$600, with which I paid most of my indebtedness.

"Having obtained the text books while teaching, I studied law by myself, but never read a day in a lawyer's office, and in September, 1845, I was admitted to the bar in Canton by the Hon. Augustus R. Wright, then presiding, who was very complimentary to me on the examination I then stood.

With the aid of the late Dr. John W. Lewis, so well and favorably known to the people of Georgia, I was furnished the money to go to Yale College law school, where I graduated in 1847. I was married to Miss Elizabeth Crisham in South Carolina in 1847. Soon after this came the period when I held my first official position and the people delegated to me their first trust.

As already stated, at 19 years of age in November 1840, I left my father's farm, on foot, to go 125 miles to an academy to school. In November 1857, just seventeen years later, I was inaugurated Governor of Georgia, being then a little over 36 years of age, and probably the youngest man that had ever filled that place.

If the example is worth anything to the youth of the State, my egotism will be pardoned. The intention at least is right. What one boy, under the circumstances mentioned, has accomplished, may be accomplished by another, and if not to the fullest degree, there may be many approximations by boys of pluck, energy and perseverance. The way is open to every bright boy to better his condition. May you all determine to do so."—Atlanta Journal.

### "A GIRL'S WAY."

Standing idly in the hall-way

With the stairway winding there,

Whispering softly to a maiden;

Bending o'er her golden hair,

Gleaming 'neath the candelabra,

Blooming face so bright and fair—

He cannot leave the maiden

With voice so soft and smile so rare.

Standing out beneath that stairway,

After midnight, bending low,

O'er the face to him so changing,

How the blushes come and go!

L'ENVIO:

But above that winding stairway

Looms a figure clothed in white

And her father whispers sternly,

"Gwendolyn, put out that light!

And his charming duteous daughter

Does his will with smile so fair:

Then returns she to her lover,

And they still are standing there,

Without the light,

Is that quite right?

THE ORANGE AND BLUE \$1 a session.

# THE ORANGE AND BLUE

Published by the Wirt and Websterian Literary Societies on the First and Third Wednesdays of each month at the Alabama Polytechnic Institute.

WIRT: JAS. A. DUNCAN,  
Editor-in-chief.

WEBSTERIAN: Associates,  
R. C. CONNER, H. H. PEEVEY,  
R. H. ADAMS.  
Business Manager, W. W. MOORE.

ORANGE and BLUE, 75 cents from Jan. 1st. to June 12th, Subscribe Now.

ADVERTISING RATES UPON APPLICATION.

All contributions for THE ORANGE AND BLUE should be sent to the Editor-in-chief at least one week before the date of issue if designed for publication in that number.

All business should be addressed to the Business Manager.

We will be glad to receive the subscriptions of all the Alumni and friends of the College receiving a copy of this issue.

Entered at the Auburn Post Office as second class mail matter.

Have you paid your subscription? If not, you will oblige us exceedingly by handing it to the Business Manager. If you can't find him, or are not in Auburn use the post office. Whatever you do pay us as soon as you can. A dollar is not so much that every boy in college can't afford to support his college paper.

Since our last issue the Athletic committee seems to have "gotten a hump on themselves," for they have been doing good work. The gymnasium is now opened every Monday, Wednesday, Friday and Saturday afternoon and preparations are being considered for field day. We congratulate the committee on its good work thus far and hope to see it continue.

Owing to the fact that January contained five Wednesdays there was an interval of three weeks between our last issue and this. For the benefit of those who have been enquiring for us we will call attention to the fact that THE ORANGE AND BLUE is issued on the first and third Wednesdays of each month and not every other Wednesday.

We again urge the students generally to contribute something. The editors have their regular work to do and when they have to get up the whole paper themselves, they are pushed for time. Think of this boys and help us out occasionally. We would be especially glad to hear from some of the Alumni now and then regarding anything of interest to them.

Let us know where you are and what you are doing if nothing more.

We regret very much to announce a change in the staff of THE ORANGE AND BLUE. L. S. Boyd, elected co-editor by the Websterian society, has resigned that he may devote more time to his studies, and his place has not yet been filled. Lee made an able and efficient officer and unless a very good man is put in his place he will be missed exceedingly. We are sorry to have been obliged to give him up. The associate editor's place vacant so long has been at last filled. Immediately after his election last fall Thomason resigned and a very Moulderhas been elected by the Webbs to fill his place. We welcome him and expect good work from him.

One very important feature of the series of religious meetings just closed was the part that prayer played. Few doubt that the number of conversions made and the great interest shown was directly in answer to the prayers that were offered at the throne of grace. Previous to the meeting a number of earnest christians met every afternoon to ask God's blessing on the meeting and during them prayers were continually ascending from the hearts of many in Auburn and in various parts of the State. A noticeable fact was, that of those who professed conversion many were the very ones that were the individual objects of special prayer on the part of friends. Can anyone who observed the working of God's spirit during these meetings doubt for one moment that He answers prayer, when offered in the proper spirit, and in accordance with conditions laid down in His word.

## Livery Stable Notice.

Wishing to retire from the business, I have decided to close out my entire stock of select riding horses, ponies, mules, etc., at a very low figure. These animals are guaranteed thorough bred, and most of them in fine condition. Several slightly disfigured but still in the ring. I have on hand a special line of German donkeys.

Yours truly,

SIR WALTER SCOTT.

\$50.00 REWARD.

For a lost boy, carrying on his back an empty bag containing three railroad tunnels, an auger hole, a monkey wrench. When last seen he was up in a balloon shoveling wind off the college steeple. He was born day before to-morrow, thirteen years ago, his mother being present at the time.

Have you noticed the post-graduate? Having met in the wee sma' hours of a dark and dreamy night,

with nothing to disturb the awful stillness but whistling winds and rushing waters, and solemnly pledged each other to do something to distinguish them from the common herd of humanity they one and all decided to let their whiskers grow. Some are progressing nicely, but others seem to need an influx of energy such as is supposed to spring from an application of some fertilizer. They are all having a hard time, but some are determined to pull through and make a show, even if it does require an age as long as the life of Methuselah to do so. If anyone can suggest a good receipt, or in any way assist the growth, let him not be backward in offering his help, for it will be cheerfully received.

Y. M. C. A.

As announced in our last issue, a series of meetings conducted by Messrs. Willis and Brockman under the auspices of the Y. M. C. A., began on Wednesday evening, January 23rd and closed on Monday night Jan. 28th. Regular meetings were held every night at the Presbyterian church, and every evening just after roll-call a meeting of workers was held. Besides these additional meetings were held on Saturday morning, and Saturday and Sunday afternoons. All of the meetings were well attended despite the fact that examinations were not far distant, and the disagreeableness of the weather. At the nightly meetings there was an average attendance of nearly 150 students. The meetings were all conducted by Mr. F. S. Brockman, one of the college secretaries of the International Committee, assisted by Mr. F. S. Willis our state Secretary. Mr. Brockman's led the talking, Mr. Willis the singing. All the meetings were exceedingly interesting and no one can doubt the great amount of good accomplished by them. Mr. Brockman talks were simple and earnest, his frank, open and clear manner of expression showed his intellectual and especially his spiritual strength which gave his words a power not of ten realized in a speaker. Mr. Willis' singing is known to most of our readers, and they will all agree that this was quite an enjoyable feature of the meetings. Under his influence the students caught something of his beauty of song, and one and all, with few exceptions that were unnoticed, sang with a warmth and sweetness not known to them before. Many manifested great interest in the services and testified for the Savior. About forty-five professed conversion and promised to live better and more upright lives, many of whom will join the church of their choice at the first opportunity

presented. As a whole the meetings have been a blessing to the college and many regretted their close. Mr. Willis and Mr. Brockman left on Tuesday morning, Jan. 29th, having made a host of friends during their brief stay amongst us. The former will visit us again in a month or so.

Of those interested by the meetings many decided to join the association and bible classes. The latter have been organized and will do good work.

## CLASS ELECTIONS.

In the last issue we published a list of senior class officers. Below we give the result of recent elections and the officers of the Junior class that were elected last session.

Freshman class: Pres., Hare; V. P., Abernethy, Secty., Dean; Treas., Fenton; Capt. of Base-ball team, Cobb. Sophomore class: Pres., Byrum; V. P., Milstead; Secty., Hobdy; Treas., Hardaway; Capt. B. B. Team, Hobdy. Junior class (elected last year): Pres., Longley (not returned this session); V. P., Williams, W. M.; Secty. and Treas., Casey.

Mr. Brockman talks were simple and earnest, his frank, open and clear manner of expression showed his intellectual and especially his spiritual strength which gave his words a power not of ten realized in a speaker. Mr. Willis' singing is known to most of our readers, and they will all agree that this was quite an enjoyable feature of the meetings. Under his influence the students caught something of his beauty of song, and one and all, with few exceptions that were unnoticed, sang with a warmth and sweetness not known to them before. Many manifested great interest in the services and testified for the Savior. About forty-five professed conversion and promised to live better and more upright lives, many of whom will join the church of their choice at the first opportunity

presented. As a whole, the meetings have been a blessing to the college and many regretted their close. Mr. Willis and Mr. Brockman left on Tuesday morning, Jan. 29th, having made a host of friends during their brief stay amongst us. The former will visit us again in a month or so.

Of those interested by the meetings many decided to join the association and bible classes. The latter have been organized and will do good work.

## CLASS ELECTIONS.

In the last issue we published a list of senior class officers. Below we give the result of recent elections and the officers of the Junior class that were elected last session.

Freshman class: Pres., Hare; V. P.; Abernethy, Secty., Dean; Treas., Fenton; Capt. of Base-ball team, Cobb. Sophomore class: Pres., Byrum; V. P., Milstead; Secty., Hobdy; Treas., Hardaway; Capt. B. B. Team, Hobdy. Junior class (elected last year): Pres., Longley (not returned this session); V. P., Williams, W. M.; Secty. and Treas., Casey.

D. R. J. H. DRAKE, JR.,  
Eye, Ear, Nose, Throat and Lungs  
Office Hudmon Building, office hours  
9 to 12 a. m., 2 to 4 p. m.

Monday and Tuesday in Auburn,  
Rest of the week in Opelika.

## LOCAL AND PERSONAL.

Mrs. O. D. Smith is on a visit to the city.

The hop at Thomas Hall Saturday was a phenomenal success. It was to have been Friday night but all manner of circumstances occurred to prevent it.

However, the young men were determined to have a dance and Saturday morning although the weather was still unfavorable, they provided conveyances for the young ladies and at 11 o'clock they all were invited in the Hall where under the directions of Mr. H. R. Casey one of the prettiest germans of the season was danced. Mesdames Smith and Steadman were kind enough to act as chaperones and it was to their kind care that a great portion of the success of the occasion was due. A prominent feature of the time was Dick Walker's beautiful dancing. At one o'clock the dancers having tipped the fantastic toe to their satisfaction, dispersed.

Mr. Carey McElhanev Sr., had the misfortune last Monday morning to be bitten on the finger by a dog that had symptoms of hydrophobia. The wound was thoroughly cauterized and no danger at all is apprehended.

Dr. Broun made a business trip to Montgomery last week.

We are glad to see cadet Bancroft again in school. His hand is almost well.

Mr. F. F. Hill, now of La Grange, was in town Sunday visiting his family. Mr. Hill is a lasting favorite of Auburn and he is always welcomed in the city.

Among the visitors to the dance were the Misses Hooper of Opelika. They have many admirers in Auburn who are always delighted to see them.

Mr. T. Y. Conner of Tuskegee father of R. C. and T. P. Conner, came up Saturday on a visit.

Prof. of Mental Science—Mr. B., what is a thing?

Mr. B. (deeply)—It is a conglomeration of phylopsychical sense organs. The class then busted.

Miss Sue McConn, of La Fayette, who has been visiting in Troy, stopped over on a short visit to Miss Charlotte Hale last Thursday. She left for home Sunday afternoon.

Misses Mamie Harrison and Lela Phillips, two of Opelika's most charming young ladies, were in the city Saturday visiting friends.

Miss Patti Preer, of Columbus, is visiting the Misses Glenn.

Nearly every day a new student is added to the roll of the A. & M. Col-

lege. Our number is rapidly nearing three hundred.

Prof. and Mrs. J. M. Stedman issued a large number of invitations to their friends for a delightful "At Home" on Thursday evening, Jan. 31st. The occasion was a most brilliant one; a perfect night, beautiful women, well-dressed men, delicious refreshments, exquisite music—who could wish for more? Mr. and Mrs. Stedman were assisted in receiving and entertaining the guests by Misses Allie Glenn, Kate and Ella Lupton, Lula Bondurant, Fannie Toomer, Kate Brown, and Ida Heck. The music was furnished by Miss Fannie Toomer, Mrs. Cary, Miss Heck, Miss Lulu Moore, Miss Kate Lupton, Mr. W. M. Riggs, and Miss Patti Preer. A more pleasant entertainment could not have been provided.

Messrs. Hefflin and Abernathy, two of La Fayette's most prominent young men, paid Auburn a flying trip Sunday.

Wandering Willie (trying to "beat" an excuse for absence from roll call)—Doctor, I was so sick I could neither set nor lay

Dr. D.—Yes, you look like you roosted.

The Auburn boys are now puzzled over a grave question:

Who is the prettiest girl in town?

Cadet H. W. Taylor, having resigned his position as historian for the class, Cadet R. H. Adams was unanimously elected to fill the vacancy.

The dance committee for the commencement hop is as follows:

Seniors—H. H. Smith, W. R. Shafer, G. P. Bondurant, L. B. Gammon.

Juniors—R. S. Jackson, D. Taylor, W. Williams.

Sophomore—John Arrington, Charley Nelson.

Freshman—A. C. Taylor.

Prof. B. B.—Mr. Eorup, what is the name of this powerful acid?

Mr. B.—Hydraulic acid, sir.

Prof. S. is such a sport that he not only shoots chokebores, but also wears them.

Prof. B. B.—Mr. Oglesby, how do you find the specific gravity of alcohol?

Mr. O.—Take and measure it and then add plenty of water and sugar.

Oswichee Ike—Say, Harry, how can you tell a pretty girl in the dark?

Harry S.—By the power of acquired touch perception.

Dr. Brown's motto: You cannot expect to rate as a gentleman if you expectorate on the floor.

You must expectorate in the cuspidoor.

Mr. W. R. Glenn, of Birmingham, is visiting his parents in the city.

Prof. R.—Mr. A. Skew, how long does it take you to prepare your French lesson?

Mr. Skew—Half hour, sir.

Prof. R.—Then you must have rode one Jack and led the other.

We note with pleasure the success that attended the series of meetings conducted recently at the University of N. C. under the auspices of the Y. M. C. A. The accounts of the meetings indicate a manifestation of great interest on the part of the students, and the accomplishment of much good. This news coming as it does just after the close of the splendid meetings that we have had among our students is most welcome.

Cadet Askew has been selected to fill the place of Le Vert Coleman as class poet. Le Vert is a candidate for West Point appointment and could not accept the poet's place.

The last meeting of the N. T. Lupton club was interesting and instructive in the extreme. One point of discussion was as to whether a novel with negro characters would take.

#### AMONG OUR EXCHANGES.

It would seem that the "Tar Heel" has gotten us mixed up with our contemporary in Georgia. The article regarding the inaction of the executive committee of the Athletic association, partly quoted by our North Carolina neighbor, was not seen in the "Red and Black," but appeared in the last issue of the "Orange and Blue." The executive committee referred to was not the University of Georgia committee, but that right here in the Alabama Polytechnic Institute. We are not proud of the fact, however, except of the manner in which the article under consideration was received. We thank you for commenting us on it, and trust that you will be as successful in your resolution to emulate us as we have been in our effort to stir our committee up to a realization of their duty. The work of a college paper is not to pandering to the weaknesses of its contributors, nor to uphold the faults and failures of the college and students, but to endeavor at all times to correct them by calling attention to, and directing public opinion against them. Only when it does this without fear of offending will it be a real good to the institution it represents.

While reading the first article in the January number of the Southern University Monthly we felt ourselves drawn irresistibly into the vortex of despair and despondency. Following the glowing picture of the inhumanity, the brutality, and the immorality of foot-ball, painted by the writer of said article, we could not help feeling the degeneracy of the age. "Can it be possible that such a barbarous sport as there told of could receive the sanction and support of the best people of our country? Surely man has lost the instinct that connects him with the Divine to so far forget himself as to engage in such a sport." This we repeated to ourself over and over again until we began to moan aloud our fate in such a time. But then sober reason began to return to us. We began to realize that the writer of the article on "Foot-ball" had made a mistake. He was ostensibly writing of that game, but under the influence of an over-developed imagination he had lost himself in a labyrinth of ideas, which he had to express in order to give vent to his over-wrought feelings, although conscious that he was not writing of foot-ball but of something else known only to himself. We have seen many games of foot-ball, but never such an exhibition as he pictures. The foot-ball that we are familiar with is utterly devoid of the horrors he imagines. We feel somewhat sorry that such an

article crept into the magazine, despite the fact that it amused us mightily. Otherwise the January number was exceedingly good, especially the "Y. M. C. A. Notes."

The Red and Black of the University of Georgia is under a new management. Chief of the staff of editors is Frank C. Keen, who is well known to many at Auburn. We wish the new men the success that merit deserves, and always welcome the Red and Black to our office.

The January number of the Georgia Tech contains an interesting article on "Examinations." The writer takes a solid stand against the holding of examinations, thinking that they not only have no legitimate place in a college education, but are positively harmful.

We have received a goodly number of exchanges since our last issue, all of which are interesting, many being at their best.

Tulane University now has two literary societies, one having been organized quite recently.

T. M. Watlington, '89, of Dayton, after teaching two years at the Agricultural School at Abbeville, took the law course at Tuscaloosa in 1892. After completing the business course at the Commercial College of Ky. University, of Lexington, where he made quite a reputation for taking long walks and drinking sodas, he practiced his profession for a short while in Ft. Worth, Texas. He has an excellent position with Leo Tarleton, a prominent lawyer of San Antonio, Texas. Tall, handsome, dignified, full of humor, but careful with the feelings of others, a clear and easy mode of expression, and with plenty of good common sense to back all this, "Wat" will at no distant day grace the halls of our legislators.
